Checklist of Up-to-Date Pages

(This checklist will be updated with the printing of each Supplement)

From our experience in publishing Looseleaf Supplements on a page-for-page substitution basis, it has become evident that through usage and supplementation many pages can be inserted and removed in error.

The following listing is included in this Code as a ready guide for the user to determine whether the Code volume properly reflects the latest printing of each page.

In the first column all page numbers are listed in sequence. The second column reflects the latest printing of the pages as they should appear in an up-to-date volume. The letters "OC" indicate the pages have not been reprinted in the Supplement Service and appear as published for the original Code. When a page has been reprinted or printed in the Supplement Service, this column reflects the identification number or Supplement Number printed on the bottom of the page.

In addition to assisting existing holders of the Code, this list may be used in compiling an up-to-date copy from the original Code and subsequent Supplements.

CHAPTER 55. CABLE TELEVISION

- Sec. 55.01. Definition.
Sec. 55.02. Basic subscriber service rates and other charges.

Sec. 55.01. Definition.

Cable television system. Any facility consisting of a set of closed transmission paths and associated signal generation, reception and control equipment that is designed to provide cable service which includes video programming and which is provided to multiple subscribers within a community, except that such definition shall not include (i) a system that serves fewer than 20 subscribers, (ii) a facility that serves only to retransmit the television signals of one or more television broadcast stations, (iii) a facility that serves only subscribers in one or more multiple unit dwellings under common ownership, control, or management, unless such facility or facilities use any public right-of-way, (iv) a facility of a common carrier which is subject, in whole or in part, to the provisions of Title II of the Communications Act of 1934, 47 U.S.C. § 201 et seq. except that such facility shall be considered a cable system to the extent such facility is used in the transmission of video programming directly to subscribers, (v) any facilities of any electric utility used solely for operating its electric systems, or (vi) any portion of a system that serves fewer than 50 subscribers in any county, city or town, where such portion is a part of a larger system franchised in an adjacent jurisdiction.

(Ord. No. 20-94, 4-4-94)

Sec. 55.02. Basic subscriber service rates and other charges.

(A) To the extent that continued regulation of subscriber rates for basic cable services is of limited effectiveness, no longer serves the interests of cable subscribers within the City of Muncie, and operates as an impediment to the availability of a low priced package of "limited basic cable service" for citizens living in the Muncie franchise area, the Muncie Cable Commission's authority to regulate subscriber rates for basic cable services is hereby withdrawn, effective October 4, 2004.

(B) All charges to subscribers shall be consistent with a rate schedule for all services offered by a grantee. Written notice of proposed changes in the basic subscriber service rate schedule shall be submitted to the commission and to each subscriber subject to any increase in rates. Such notices to the commission and to each subscriber subject to such changes shall describe all existing rates, all proposed changes, the reasons therefor, and all terms and conditions related thereto. Proposed changes in the basic subscriber service rate schedule shall not take effect until at least 60 days after (i) issuance of a final written decision of the Commission regarding such proposed changes, and (ii) grantee's notice of such changes to each subscriber subject to such changes, provided, however, that in its reasonable discretion, the commission may order reductions in basic subscriber service rates to be effective earlier. Notwithstanding any provision herein to the contrary, changes in the price to be charged to a subscriber for inflationary and external costs adjustments, as permitted by the regulations, shall be approved by the commission within 30 days of receipt if such proposed adjustment is in strict compliance with the applicable federal regulations.

(C) Any person who requests cable television service or becomes a subscriber after final written decision of the commission, but before the approved change becomes effective, shall be immediately notified in writing by the grantee that rate changes are scheduled. Such written notice of the scheduled increase shall be sent, by the grantee, by first class mail not later than three days, not including Saturdays, Sundays, and legal holidays, after such service is requested.

(D) A grantee may, for promotional purposes, at its own discretion, waive, reduce or suspend connection charges and/or monthly service rates for a period of up to 90 days, except as may be otherwise approved by the commission. Nothing in this subsection shall prohibit a grantee from offering free connections for a 30-day period to any new subscriber in an area where cable service is being offered for the first time as a result of construction or extension of a cable television system.

§ 55.02

MUNCIE CODE

(E) A subscriber shall have the right to have its service disconnected without charge at any time. No subscriber shall be charged for cable television service for more than two business days following the date of notice to the grantee of the same. Such disconnection and recovery of the grantee's cable equipment shall be made as soon as practicable and in no case later than ten days following such notice. A refund of unused basic subscriber service charges, plus interest at the rate of at least five percent annual interest, shall be paid to the subscriber within 30 days from the date of disconnection. A grantee shall not require payment of any charge following disconnection of service, except those due for services previously provided, and charges for reconnection and subsequent monthly or periodic charges which shall be no greater than charges for new customers. This section shall not prevent a grantee from refusing service to any person because the grantee's prior accounts with that person shall remain due and owing.
